## Specialisms

### **Pressing techniques**

This is the technique we use most, and we can justifiably say that it is our specialisation. We can use various pressing techniques, depending on the nature of the work.

### **Sliding and jacking techniques**

Jacking is an area all of its own In infrastructure work no project is ever the same. As well as expertise built up over many years, we have a grea...

---

### **Sound insulation**

This minimum disruption for the surroundings is achieved through the use of noise and vibration-free piling systems that we install ourselves.

---

### **Civil engineering works**

As part of Strukton Civiel, Strukton Infratechnieken carries out the smaller (concrete) civil engineering works.
